Performance for Portfolios assumes investment at the beginning of the period indicated and includes reinvestment of dividends and other earnings. It reflects all SEI recommended reallocations and changes among the funds, including changes in investment managers and funds included in the strategy. Information on allocations among funds, reallocations and strategy changes is available upon request. Strategy performance shown is hypothetical and not meant to represent any individual client account.

SEI Investments Canada Company, a wholly owned subsidiary of SEI Investments Company, is the Manager of the SEI Funds and the SEI Portfolios, an asset allocation service, in Canada. Please read the prospectus of the SEI Funds and the Underlying Funds in which investment may be made under the SEI Portfolios before investing. The indicated rates of return are the historical annual compounded total returns including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any unitholders that would have reduced returns. For money market funds, the performance data provided assumes reinvestment of distributions only and does not take into account sales, redemption, distribution or optional charges or income taxes payable by any unitholder that would have reduced returns. Mutual fund securities are not covered by the Canada Deposit Insurance Corporation or by any other government deposit insurer, they are not guaranteed. There can be no assurances that a money market fund will be able to maintain its net asset value per security at a constant amount or that the full amount of your investment in the money market fund will be returned to you. Mutual funds are not guaranteed, their values change frequently and past performance may not be repeated.
